How To Play Craps: Master The Craps Game! Learn The Craps Rules, Study The Craps Odds, Discover How To Win At Craps Using A Winner Craps Strategy And Become A Real Pro At The Casino Craps Table!

Synopsis

September 2014 Edition (New, Updated and Better than Ever!)Who Else Wants to Play Craps Like a Regular at the Vegas Casinos?* * *LIMITED TIME OFFER! 50% OFF! (Regular Price \$5.99)* * * It might masquerade as oh-so-simple, but Craps is one of the most complicated gambling games in any casino. It's all about the betting - and if you don't have the skill and knowledge to control the bet, you stand to lose thousands of dollars at the table.Losing far more games than you win? Then you've come to just the right place.Hi, I'm Kevin, an expert casino player with years of experience and hundreds of thousands in craps earnings to back that up.But I wasn't always like that.I started out just like you.I loved the game and found all the little details absolutely fascinating, but I didn't know how to put it all together. I was losing hundreds of dollars every time and I simply couldn't work out why. What could I possibly be doing wrong, when all you have to do is toss a couple of dice across the velvet?I wanted to understand what makes this game so mind-bogglingly intricate, but nobody was able to tell me. That's why I've written this book - because through years and years of experience, I've come to understand this game better than anyone else. And I'm willing to share what I know with you.Give me ONE day and I'll help you win TEN times more Craps gamesAnd I'll do it for the price of a glass of beer. Even if you've never before played a game of craps, I can show you how to turn your worst losing streak into the pile of chips you've been dreaming of.Winning at Craps is possible, even if you're a complete beginnerI'll show you how to bet like a pro, learn the lay of the land and understand what you've been missing all this time: what it takes to win a game of Craps.Within this guide, you'll find:A beginner's guide to all the lingo you'll hear thrown around at the Craps table.The rules of the game in details, whether you're at the casino or playing with friends.Betting strategy in outline, as well as the systems you can use to boost your chances.How to create a betting pattern that will actually help you win.And a whole lot moreâ If you don't read this guide, you could lose THOUSANDS of \$\$\$Craps is a high stakes game. If you're not playing properly, you stand to lose hundreds or even thousands of dollars in a single session. I want to help you avoid that fate - and I can, with the guidance in this book.Don't just take my word for it...I've made it my business to help beginners learn to beat the house for years. Here's what just some of them had to say:"This book is the most thorough guide that I have ever read as it includes the mechanics, the common game plays and some strategies and tips that will help a neophyte win his or her first game.""If it weren't for this clear and no-nonsense instructional guide on how to play craps, I'd still be at a loss in playing the game.""If you're a beginner just wanting to start out, this should be the perfect launch pad for you into the world of Craps. Even if you're a seasoned pro, this book could have that extra bit of information which you might have missed.""I would recommend it

to anyone wanting to learn how to win at casino craps."100% Ironclad Money-Back GuaranteeIf you finish this guide and you don't win at least one more game of craps at your next session, simply click one button within 7 days of the purchase and will return 100% of your money back. That's how confident I am that this guide really WILL help you beat the odds and win the game.No risk, nothing to lose!Just scroll up now and click the BUY NOW button to unlock the secrets of the most popular game in Vegas.

Customer Reviews

Amidst all the games you can play in a casino, craps is definitely one of the more elusive ones. With this guide, however, everything changed for me. It demystifies the whole game, starting from the simplicity of rolls, to how to win with relative ease.After doing a lot of searching on my own, I couldnâ ™t find the integrative ideologies that were presented in this book. This pulls no punches, it teaches you how to play, and gives you advice as to how the game works on a deeper level. Itâ ™s a solid guide that if followed, will take away the anxiety that may come with play craps in a casino setting. I love the ease of the explanations, as this is an easy book to pick up and follow, itâ ™s highly recommended.

Craps is one of those games that I never learned to play, but was always fascinated by. I liked the idea of the game so much that I even wrote a character who was really good at it into one of my books. But since I knew next to nothing about the game of craps, I decided to buy this guide on the game once the time to start revising my novel came. This was after unsuccessful attempts to get the info I needed off Google and let me just say that this book is totally worth the price. After studying it, I was able to write about the game as a pro might. The sections on betting and understanding the odds were especially helpful for that. And the added bonus is that I can now actually play craps. The book is laid out in easy to follow chapters and each of these takes you a bit further into understanding the game. I found the book easy to read and the instructions easy to understand. I'd recommend this to anyone looking to learn to play craps, or just learn more about the game itself.

Craps is a fun and surprisingly simple table game. This book helped my group of friends manage our limited gambling funds at the most exciting table in a casino. So then, why is this a good source? The odds of various rolls are clearly set out in tables. The author further provides methods of maximizing the return on various bets at the table. It should be noted that this book is honest. It does not hold itself out as producing a "winning" or "beating the casino" strategy like some others I look at. Instead, it teaches the reader the game.

This book was refreshing view of the game of craps. Good information and written without bias and plenty of warnings about how the House is always going to win in the long run. Yes you can win but if you keep playing you will surely lose. I enjoyed the book as it was my first book to learn about the game. I would recommend this book to anyone without knowledge but a desire to learn the basics of craps.

I didn't know about craps until I read this book. Craps is a complex game that arises from very simple actions; through a couple of cubes across a table with only a few possible outcomes. It's the betting that makes a game of craps fun and that introduces the real complexity. This book will teach you the basic ins and outs of the game. It provides a step by step breakdown of the game, the rules and playing sequence. The book is relatively short, but the information is superb for anyone that is new to the game, or even for the hardened player who may be looking at another way to approach the game. Furthermore, the book is easy to read and understand. I strongly recommend

this book to beginners as well as who wants to be expert in this game.

Craps is one of those games that always seemed to escape me. After reading this I feel more confident in understanding the odds of the game. That is what this book does well, explains the odds. I think that there could have been a little bit more of showing table positions visually etc. I would suggest doing what I did and reading this book while playing an version. It made more sense to me that way. Hopefully I won't lose my shirt during the real thing!

Just trying to play smart here. I just wanted to know the probabilities in winning when in a Casino. I don't know but I guess it's really just luck more than algorithm. Although the book gives a very good basis for computing chances of "luck" with all the figures, I still believe we need prayers... Haha. The book gave justice to the research. Amazing actually

Just saw this book while I was doing my shopping and out of nowhere I purchased this book. While I was reading this book, I got to learn different techniques to play the casino games. Also, the book taught me the different kinds of lingo. I have also learned about the paroli and the gambler's fallacy, which are really helpful. Kudos to the author!
