Customer Reviews

Let me start by saying that Stana Martin, PHD, is an excellent writer ~ she is concise, direct and makes an otherwise complicated subject into a well written guide ~ entertaining as well as educational and easy to follow. This book is about how to go through the claims process once you, or your family, decides itâ™s âœtimeâ• to trigger in the long term care policy that no one ever thinks they will ever need. Thank goodness for Stana Martinâ™s guide to help her readers through this process. As 70% of folks over 65 yrs old will need long term care during their lifetime, this guide will walk you through the steps of filing for a claim and getting the most from your policy.

If your parent had the foresight to get long term care insurance, you are very lucky not to worry about where the money will come from to pay for your momâ™s care. However, when Mom needs

care, you can't just hand an insurance card over to the home care agency or facility. It is much more complicated than that! Using humor in a fairy tale format, Dr. Stana Martin explains why it can be a very long process getting a claim approved for long term care insurance benefits, and she provides Princess Dutiful step-by-step instructions to make the process as happily ever after as possible.

Light, easy reading that puts a complex subject in an understandable manner. Long term care insurance is a BEAST to understand! Wish I had read this guide before we had to use my Mom's. Would have saved a ton of landmines. A must read to understand this complicated world of long term care insurance..

Read if you have family member with a LTC policy. Will help you greatly. She is very knows what she is talking about really helped me with my sisters policy.

Exactly what I was looking for.
