## Customer Reviews

This is by far NOT easy at all. I'm mad that I spent money for a book that I cannot enjoy because it was false advertising when it tells you it is easy when clearly it is majority of difficult to very difficult to do. NEVER buy anything from this Djape again.

These are supposed to be easy sudoku puzzles. I play the game to relax. I found 6 out of the first 26 "easy", meaning I didn't have to refer to the solved puzzle to continue. The rest were at the least "medium." The good points are: large font, yet compact size. 200 puzzles to solve. These puzzles made it easier for me to solve medium to difficult puzzles in another Sudoko book. So, thanks for that at least.

This is a better investment for the distributor than selling fine wines! Expensive, a VERY small amount of puzzles, the books are tiny (about 4"x6") so we sent them back. The order website did not match what we received in the mail, so read the description carefully.

I love Sudoku but prefer simple, quick puzzles, this is very nicely formatted and leaves room on the sides for your number. The only drawback is the puzzles are a bit more challenging then just basic 'easy' but still a good Sudoku book.

I purchased this book for my granddaughter. We worked on Sudoku together and I hope this will keep her working on it when we aren't together. It's a good Way to keep training your brain

I thought these were all easy but they go up in difficulty so just know this. Other than that it came quickly and perfect.

Maybe I'm just not very bright, this was the hardest "easy" sudoku I've ever done.

This was a gift and the person who received it loved it.
